ACCORHG Full Upload Process

Purpose:

This process outlines the procedure for submitting full upload requests, ensuring they are directed to the appropriate team.

Scope:

Applies to all teams managing full upload requests, particularly when a client explicitly requests one via case or email.

Process Steps:

- 1. Direct Requests to Global RM:**
All full upload requests, including client requests, must be submitted to the Accor Global Revenue Management (Global RM) Team.
- 2. Do Not Use Enterprise Template:**
Full upload requests should not be responded to with the Enterprise Full Upload Template.
- 3. Submission Method:**
Send full upload requests via email to:
Global.RevenueManagement@accor.com

Accor micromanages the load capacity to TARS (Accor CRS), thus it is advised that hotel RM should contact Global RM Team for any full upload request. Full upload must be scheduled by Accor Global RM Team.
