Addressing First Decision Upload Failure for ACCORHG Rollout Properties

Hello Team,

This document is to explain on how to address the First Decision Upload failure only for ACCORHG Rollout properties and not the regular uploads.

Procedure:

Identify Properties in Transition through below 3 checklists.

1. Decision creation phase to the Decision delivery phase

Look for properties that have recently transitioned from the Decision creation phase to the Decision delivery phase. These properties are typically part of the ACCORHG Rollout and are undergoing their initial first decision upload/ Go Alive.

2. Special Care Toggle

A “Special Care Toggle” will be enabled for properties that are in the go-live or first decision upload phase.

3. List of Go-Live Properties

The list of properties that are going live will be shared via email. Make sure to reference this list to identify the relevant properties for which the process applies.

RE: INT/ACCORHG – G3 RMS Monitoring to Ensure Smooth Go Live Operations

If the Property qualifies any one of the checklist then you have to follow the below step.

4. Handling First Upload Failure

In case of a failure during the first upload for a rollout property, Do not send email to client, follow the below steps:

1. **Send an Email to the ACCOR Rollout Team** (ICS) following the format outlined below.
2. Use the provided subject line and body content to ensure consistency and clear communication.

5. Email Format:

To:

IDeaS: ICS ACCOR Rollout Team
Email: ACCORRolloutTeam@ideas.com

CC:

IDeaS Enterprise Accor Team
Email: IDeaSEnterprise_AccorTeam@ideas.com

Care
Email: care@ideas.com

Mangesh Shinde
Email: Mangesh.Shinde@IDeaS.com

Subject Line:

INT/Property Name (Property Code) – First Decision Upload Failure – Date
For example:
INT/Mercure Bordeaux Lac (H0551) – First Decision Upload Failure – 21st Jan 2025

Email Body:

Hello Rollout Team,

This is to inform you that during the first decision upload for the property mentioned below, we encountered a failure in the decision type:

Decision Type: OCP/LAST_ROOM_VALUE_BY_ROOM_CLASS
Error:

Decision Upload for Hurdle failed for date: 2025-01-14, value: Invalid Yield
Category: STDFor Resort: H0551

Ranjit on [Accor Client Handling Process Guide](#)

Could you please review this failure, address the issue with the client, and provide an update on the resolution within this email thread once successful?

6. Follow-Up and Resolution

Once the email has been sent, follow up with the Rollout Team until the issue is resolved.

7. Contact Information for Further Assistance:

- **Sagar** (for any questions or concerns related to the process)
- **Soibam** (for any questions or concerns related to the process)

End of Document

By following this process, we can ensure that first decision upload failures for ACCORHG Rollout properties are handled promptly and effectively, facilitating a smooth go-live operation.

+2
