Post Resumed the Job, you might get to see the job has failed it is due to the multiple false files.

To resolve this, repeat the workaround till the job gets completed.

Follow the below steps if you get the “BenefitMeasurementRunTaskBackDateJob” failures

For the Job name – BenefitMeasurementRunTaskBackDateJob failures on all the prods and

Step Name: benefitMeasurementFailForLockedPropertiesStep

Problem Description:

=====

org. spring framework.batch.core.JobExecutionException: Failed for month: Jul-2023

Skipped Properties: 993287

Please inform team Aryabhatta about this error and then continue with the step.

=====

We have to check the property ID for example above error- 993287

just paste the property ID in the data log and click on the work context property ID, and you will get the property details.

https://ideas.datadoghq.com/logs?query=993287%20&cols=host%2Cservice&event=AgAAAYqDwwCPjBPRoQAAAAA AAAAYAAAAAEFZcUR3d19HQUBNEpRM1RJcENMR2dBSwAAACQAAAAAM DE4YTgzYzMtNjJlMi00ODFmLTgyYWQtNjgzNDRjZGI1Ymly&index=&messageDisplay=inline&refresh_mode=sliding&stream_sort=time%2Cdesc&viz=stream&from_ts=1665479359074&to_ts=1665565759074&live=true

Action

- 1) Check if the property is updated.
- 2) If not check for the failed jobs and action it. if the failed job is related to ICS, ask them to action it. until the other jobs are not completed BenefitMeasurementRunTaskBackDateJob failures will not be complete.
- 3) Continue the job.
