CP Configurations for New properties

CP Configurations for New properties:

-

There are following steps if we want to enable CP for properties:

- Enable continuous pricing feature: set “pacman.feature.isContinuousPricingEnabled” to true. Below is the snapshot for reference.

IDEAS | G3 REVENUE MANAGEMENT SYSTEM

pacman.feature.IsPricingConfigurationEnabled	true		false	✕	i

- Analytics: in New_Feature table set (new_feature.sas7bdat) “continuous_pricing” feature status ID to 1.

Go to path C:\SAS\Data\Properties\<Property ID> open file 'new_feature.sas7bdat' and edit mode and set 1 for feature_status_id.

- Roles – Provide necessary permissions to client admin role so that client can use the feature.

We need to give permission for module Continuous Pricing Management under decision and Pricing Configuration under configure. Below are the snapshots

For Continuous Pricing Management screen: highlighted in yellow

For Pricing Configuration: highlighted in yellow
