ComponentRoomOccupancyForecastBackupStep Failure

Issue:

There are processing failures for multiple properties across Prod 2 and Prod 3. All are failing in the below step –

Step Name: “componentRoomOccupancyForecastBackupStep”.

We get the following error:

=====

javax.persistence.PersistenceException:
org.hibernate.exception.ConstraintViolationException: could not execute statement
Cause : org.hibernate.exception.ConstraintViolationException: could not execute
statement Cause : com.microsoft.sqlserver.jdbc.SQLServerException: Cannot insert
the value NULL into column 'Month_ID', table '992794.dbo.Occ_FCST_Org'; column
does not allow nulls. INSERT fails.

=====

Root Cause:

- Occ_FCST_Org table was initially a copy of Occupancy_FCST.
- month_id and year_id were initially not null in both tables.
- Occupancy_FCST was later altered to allow nulls in these columns.
- Occ_FCST_Org was NOT updated, causing the insert to fail when copying data from Occupancy_FCST.

Defect Tracking:

This issue is tracked under KALAM-10529.

Workaround:

1. Identify NULL values:

o Run Query 1: “Identify NULL into column ‘Month_ID’” to check for nulls in Month_ID.

Run SQL

Selected Query: **Identify NULL into column 'Month_ID'**

SFDC Case: **Get**

☒ Select One or More Chains ☐ Import Property Codes

Prod Instances:

Select Chains:

☒ Select Specific Hotel ☐ Filter Hotels Based On Client Attributes ☐ 0 - Hotels found! ☐ Import Property Codes

Select Property:

Selected Delimiter:

Query Description:

Query Set:

2. Update Month_ID:

o Run Query 2: “Update column ‘Month_ID’” to fix the null values.

Run SQL

Selected Query: **Update column 'Month_ID'**

SFDC Case: **Get**

☒ Select One or More Chains ☐ Import Property Codes

Prod Instances:

Select Chains:

☒ Select Specific Hotel ☐ Filter Hotels Based On Client Attributes ☐ 0 - Hotels found! ☐ Import Property Codes

Select Property:

Selected Delimiter:

Query Description:

Query Set:

3. Resume Processing:

o Resume the failed job after executing the queries.

Note: This is a temporary workaround until KALAM-10529 is resolved.
