ESA – How to monitor extract receipt.

This article will help you identify if the extract is received from Pegasus to FTP.

If you observe that the extract for an ESA file is not received, before escalating it to the client, please check the FTP location;

- http://aspscripts.ideasprod.int/ftp_info/esa/

- The extracts will be available in the fromcrs folder.
- If the extract is present here, and have not been uploaded for processing, then escalate it to the QA team.
- If it is not, then escalate it to client.
