1 Introduction

1.1 Purpose

The purpose of this document is to have prerequisite in FDS for seem-less execution of Add Property Job in G3.

1.2 Scope

This document will explain the step-by-step execution process for FDS Check

1.3 Intended Audience

The target audience for this document is the entire team members working on Add Property Job in G3.

1.4 Abbreviation

Abbreviation	Description
ICS	Installation Configuration Settings
FDS	Foundation Service

2 Entry Criteria

- Project is at Execution Stage

3 Pre-Requisites & Assumptions

- It is assumed that the ICS team has the access to the following tools & has the required knowledge to use the tools and execute the project
- G3 RMS
- [FDS](#)
- [com](#)
- [Expedia](#)

4 Things to Remember

- The property cannot be added to G3 unless and until it is available in FDS & the App Config JSON for G3 is updated.

5 Activities Performed

Task 1 – Check if the property is available on FDS

- The user will go to the following page – <https://fds-admin.ideasrms.com>
- Flow 1 – Search by PMS ID
- On this page go to Search by other ID -> PMS ID – Enter the PMS Id and click on search.

Ranjit on [Accor Client Handling Process Guide](#)

- This will redirect to the following page wherein you can check the App Config JSON -> Check if this config is done for G3

- Once the configuration for G3 is available in App Config JSON then you can proceed with adding the property in G3.
- If the configuration for G3 is not available in App Config JSON, request the technology team to add the same. (Currently Sandeep Gund, Abhishek Kunden or Soumitra Inamdar)

Task 2 – Property Not Available on FDS

- If the property is not available on the FDS then request the rate vendor to push the property on IdeaS FDS.
- For the same open an internal case in SFDC -> Subject “IdeaS – FDS -rateGain-UPS Property Sync” -> Update the required details -> Come to More section as shown in below screenshot -> Click on “Share with rate Gain”-> Add your comment in the comment section -> Add your comment as below

Hello Team,

Kindly sync the following properties to our UPS system:

Name: Hotel Name

Address: Hotel address from Google

EXP ID: Expedia ID

BKN ID: Booking.com ID

Regards,

- Once you save this comment you will receive an automated acknowledgment response from “qm-hospi@retegain.com”
- In the case the “contact Name” should be your own name.
- The case raised to the Rate Gian should usually be resolved within 2-3 working days.
- If not resolved within the given time co-ordinate with the Technology team members, share the ticket number received in acknowledgment e-mail with them and the concerns that are faced related to the same. (Currently Sandeep Gund, Abhishek Kunden or Soumitra Inamdar)
- These concerns are taken care in a weekly meet with Rate Gain where the unsolved tickets are discussed and solved.

Task 3 – Check Property on FDS

- Once the property is pushed into FDS then check the App Config JSON for G3 as shown in Task 1 or 2.
- If it's not updated co-ordinate with the tech team members with below details. (Currently Sandeep Gund, Abhishek Kunden or Soumitra Inamdar)

1. UPS ID
2. Property Name
3. Client Code

- 4. Property Code
- 5. G3 Prod URL

Example -

Property Name: *TRIBE Budapest Stadium*
UPS ID: *69beb71f-4dae-44fb-9e25-95143664a194*
Client code: *ACCORHG*
Property code: *B875*
Prod URL: *<https://g3rms.ideas.com/>*

6 Exit Criteria

- Property successfully added to FDS.
- Property addition task in G3 RMS is successfully initiated.
