## G3 First (1st DU) Decision Upload Process

## Decision Upload Process

This document is a high level overview of the G3 Opera Decision Upload Process.

The decision upload process starts with the G3 Decision Upload SFDC case entered by Client Services. The life cycle of the SFDC case is approximately 14 days.

The steps for changing to *Decision Delivery Mode* can be organized into three sections:

- Client Services Preparation
- CARE Configuration
- Decision Upload

Use the dropdowns below based on what you want to understand from the details based on their general category as has been outlined.

# Client Services Preparation

Two weeks (14 days) prior to the decision upload date, Client Services enters the G3 Decision Upload SFDC case. Client Services then uses the first 7 days to acquire the required information for CARE to complete the configuration for G3 Decision upload (G3 DU – Task 0).

## Required Information

- Property ID code for all onward distribution systems (from Vendor Form)
- Daily BAR Offsets for Daily BAR properties
- The case description includes the BAR type, BAR decision type, and all other decisions types for upload

## Optional Information
