What is G3 Data Feed?

- IDEAS G3 Revenue Management System (RMS) creates a variety of information outputs in the course of generating forecasts and decisions every day, ranging from key performance indicators (KPIs) to user-generated activity data. The Data Feed options in G3 RMS enable enterprises/Hotels to have consumable revenue management-related task and process information delivered automatically to business intelligence systems or data warehouses to build greater understanding of hotel performance, system performance and user engagement.
 - Key Activities for IDEAS G3 RMS Data Outputs
 - Support enterprise reporting of G3 RMS data and business KPIs from a single source
 - Ensure optimal estate-wide RMS operations and revenue performance through configuration audits
 - Review user RMS engagement and performance
 - Monitor outstanding system and business condition alerts across an estate
