(section 6) in the figure

- Length of Stay : (This is generally 1)
- Verify Client configuration :
 - Path : Select Chain>Property>Configure> **Rate Shopping** configuration >Competitor Settings . Verify the settings under Competitor display and configuration.
 - Refer :

- Rate Shopping Configuration :**
 - Show competitor by median price
 - If a client selects a ‘competitor price’ as a guide towards pricing – irrespective of who the competitor in the market is – then all reports will show the competitor with the median of the pricing – between the competitor set and will not show comparison of just one competitor but instead a range of competitors.

Execution

- Go to G3 CMA
 - Go to SQL > Search for a query named : Query to get Competitors rates for given LOS, **Occupancy date & channel**

Select Chains: ³

Select Property: ⁴

Selected Delimiter: ;

Query Description: Query to get Competitors rates for given LOS, Occupancy date & channel

Query Set:

```
SELECT
  Webrate_generationDate vc.Webrate_Competitors_Name,los,occupancy_dt,Webrate_status,We
  brate_rate,value competitorRate from webrate w
  INNER JOIN Webrate_Accom_Class_Mapping wacm
  ON wacm.Webrate_Accom_Type_ID = w.Webrate_Accom_Type_ID
  INNER join Webrate_competitors vc
  ON vc.Webrate_competitors_id = w.Webrate_competitors_id
  WHERE occupancy_dt between @fromOccupancyDate and @toOccupancyDate
  AND webrate_channel_id = (select webrate_channel_id from webrate_channel where
  webrate_channel_name = @channelName and status_id in (1,3))
  AND w.Webrate_Competitors_ID in (select Webrate_Competitors_ID from webrate_competitors
  where status_id in (1,3))
  AND LOS in (@LOS)
  AND webrate_status in ('A','C','N')
  ORDER BY webrate_generationdate desc;
```

Query Parameters:

fromOccupancyDate(Date)	2018-12-15
toOccupancyDate(Date)	2018-12-20
channelName(String)	brand.com
LOS(Integer)	1

⁵

⁶

- Run the query
- You'd be directed to enter the previously outlined details
- Hit Run SQL
- Result will be a job id – whose results can be exported in an excel sheet.
- Reading the results
 - **No Data**
 - A no result found message indicates that no data is present for the default channel for the given date range and that you should ask the client to check Rate Shopping input data provided to IDEaS for the given date range.
 - **Some Data Returned**
 - A sampling of various competitor hotels for the given date range implies that vendor is sending 'some' input data for the hotel.
