G3-Uploading a full file to Curtis C for Carlson properties

If the Curtisc daily bar decision fails for Carlson properties due to errors follow below steps as an alternative solution

- 1. Set 'pacman.integration.curtisc.DailyBAR.uploadtype' to full for failed property.
- 2. Abandon the decision job.
- 3. Re-send a fresh curtisc decision.

Set correct Client> Set correct Property > Support > Select Send HTNG LRV > CurtisC>Send

Typically you should monitor the decision upload job right after to verify if the decision uploaded successfully.
