Identify channels and decision types

Identify channels and decisions

- Identify the channels to which the property is uploading the decisions to and Configure property prior to BDE
- Go to jobs - select the chain and the property and see what type of jobs are present recently **OR**
- Go to Support > Installation >property>
- Select client and property
- Hit search
- This should return the property
- Click on the property code hyperlink

Destination	Delivery Type	Upload Type
Opera System	Daily BAR	Differential
Opera System	Hotel overbooking	Differential
Opera System	LRV by room class	Full
Opera System	Room type overbooking	Differential

LRV IS NOT CHANGED

- You would go to decision configuration and note down the **delivery type**
- In the screenshot – you would notice that LRV is not changed and is set to full – all other delivery types should be noted - In this case Daily BAR – Hotel **Overbooking** and **Room Type overbooking**. Note all of these down for the property.
