Governance of emails issued from G3 monitoring framework

G3 solution now allows users to issue emails from from within the G3 monitoring application and is generally referred to as G3 email framework.

Governance : users can now identify how many emails were issued from within G3 by running a query in G3 CMA . Note :G3 email framework is available only in Prod2 environment and the chain selection should **ALWAYS** be global_PROD_2 as below

1. Go to G3 CMA : Go to SQL tab > Run SQL > Look for query named **Monitoring_Email_Status** in the search box and hit Run.
