HLTN/Process for Handling Discontinued Room Type Alerts – Hilton Client Only

This document outlines the standard procedure for addressing processing issues triggered by **Discontinued Room Type Alerts**, specifically for **Hilton clients**.

Guidelines:

- For fewer than 50 affected properties:
 - Send **individual emails** for each property using the designated template available in the **G3 tool**.
- For 50 or more affected properties:
 - Prepare a **single consolidated email** listing all impacted properties, instead of sending separate emails.
- Closure Communication:
 - Do not send closure emails** for Discontinued **Room Type Alerts**.
 - Follow-up emails should only be sent **if the issue persists** or requires further action.
