How to Enable a G3 Property as Special Care Property.

Introduction:

This document will take you through the steps to mark/enable a G3 property as a special care property.

This feature is applicable across all three G3 Prods.

Procedure:

Step 1:

Go to Support >>> Installation

Select the property which needs to enable for special care.

Step 3: Once the property enabled as special care property, a red flag will get tagged with it.

How it Will look like :

1) You will be able to see it in the Summary

Support >> Monitoring Dashboard >> Summary >> Active Jobs by Criticality
(Special CARE)

2) In Jobs Screen, you will be able to differentiate it with the red flag from other properties-

Limitation:

Currently, there is no differentiation to identify it in the Monitor by exception section.
