Monitoring Guidelines & Escalation Protocol

● Strict Compliance Required ●

Do not take action on jobs that are **not part of monitoring**, such as:

- Migration jobs
- Recoding jobs

If you need assistance with these, reach out to your **Shift Leads or the ICS-SPM Teams channel**.

Escalation and Communication Guidelines:

- Always follow the escalation process.
- Send closure updates on every mail thread where an issue or failure was addressed.
- When following up on client emails regarding a failure:
 - Check for the **latest error or failure**, and
 - Include it in your reply.
- If the issue continues for **more than 3 days**:
 - Check whether a **CP or CIA case** exists for the issue.
 - If a case exists and there's no support from the client side, **follow up on Chatter**.
 - Point of Contact: Shift Leads / Team Leads
 - If no CP or CIA case exists, **create one** using the standard process.

Important: Avoid copy-pasting content from older emails blindly.

- Do not reuse email subjects or bodies without verifying.
- Ensure that the correct information is sent to the right recipients by referring to SFDC Contacts.
- Always read the client's mail thoroughly.
- If the issue is resolved, do not just send a generic closure mail—make sure the client's original ask is answered.
- If you're unsure about how to respond, escalate to a Shift Lead or Team Lead.

Daily Operations Checklist

At the Start of Your Day:

1. Review Task/Case Comments

- Understand the ask and ensure clarity.
- If unsure, speak to your Shift Lead or Team Lead.
- Check task due dates and ensure they are updated or completed accordingly.

2. Check Emails and Teams Posts

- Understand ongoing issues.
- Follow any instructions or updates provided.

3. Monitoring Focus

- Begin with **long-pending issues**—these need your immediate attention.
- Reducing long-pending items helps improve the client experience.
- Check the **G3 Overdue** section and give it due attention.
- If you notice **daily recurring failures** for a specific property or chain, raise it with your Shift Lead for guidance.

Key Reminders

- Don't act on tasks outside your assigned monitoring scope.
- Communicate clearly and consistently—especially when issues are recurring or unresolved.
- Be proactive in escalating repeat failures or delayed resolutions.

Escalation CC List

For key escalations or updates, include the following individuals in CC:

- Steve Soosaimanickam
- Soibam Singh
- Sagar Bansod
- Vinayak Salunkhe
- Akshay Junghare
- Ratnakar Mane
- Pranav Thakar
- Ambar Lonkar
- Chinmay Mogare
- Shrikant Shetty
- Aditya Tungar
- Mallikarjun Birajdar
- Deb Banerjee
