PULL CRS Extract JOB- DO's and DONT's

Pull CRS Extract Job:

A Pull CRS Extract Job pulls the extract(BDE and IDP) from GRO FTP location which are kept by Hilton.

This Job is triggered by Hilton IDG Agent at an interval of time.(The time is different for each agent to trigger the Job)

Do's and Dont's:

Note :Please don't Stop/Resume/Abandon the Pull CRS Job when they are running.

* It will not stop the Process/Abandon the Process.

*It will continue to Run in the background & when you resume you are going to make it more time consuming.

*** If the Pull CRS Extract Job is running for more than 2-2.5 hours.Please follow

the below steps***

- 1. a) Go at the Execution Context and Download the Job Instance Log File
- 2. b) If the Log File is updating continuously then let the job running.
(If the log file is updating even after 2-3 Attempts of refreshed logs then please highlight the observation on On Call Team as an FYI)

c)If after 2-3 attempts of refreshed logs if you see log file is not getting updated then abandon the job.
(Before abandoning the job highlight the observation on OnCall channel for an advise .
Usually, In this case if log file is not updating and the Pull CRS Job is not moving then we abandon the Job and let next schedule trigger it.)
