SIHOT : Acknowledgement job is not getting triggered

Issue :

After the first decision upload to SIHOT PMS, in G3 decision upload job is completed but the Acknowledgement job is not getting triggered. Even in datadog we didn't received any failure message or acknowledgement.

Resolution step :

please ensure all configurations are correct for the site in G3 and NGI.

It is mandatory to set the

pacman.feature.decisionDeliveryBaseUrl

Typically this is set at : <https://decision-delivery-internal.ideasrms.com> . If not – please correct it.
