Scheduling Client WebEx for G2/G3 Installation

Overview

This outlines the process followed by ICS Team while scheduling the installation activity with the client during a G2 or G3 Implementation. It is at this stage that the Subscriber or Agent is installed to initiate the communication between the hotels Primary Inbound Property system and IDeaS RMS.

Intended Audience

Service Delivery and Client Services

Scope

Installation scheduling for all G2 and G3 RMS, exception being centrally managed implementations such as ACCOR.

Process

- ICS Team Lead will assign designated resource 1 day before the scheduled installation activity
- ICS Team Lead will send a WebEx invite as detailed below
 - Distribution List
 - Will be as mentioned on the case/task or as a standard using the Property Contact Roles.

- The CPM or the CRM (Case Owner) will be copied in the invite. This contact would ideally decline the invite or mark it tentative. CS contact is copied in the invite for awareness
- The ICS designated resource and ICS Team Lead would be the hosts for the Webex
- Schedule
 - This is determined using the Due date on the 'Install Agent' or 'Install Subscriber' task from the case
 - Time if specified would be used. The default would be Hotel Local Time between 09-00 to 10-00 AM
- Content*
 - The invite would have the WebEx details
 - Pre-requisites for the Installation
 - Agenda of the WebEx
 - Approximate duration and action items from the client*Except for the WebEx details, the content of the invite will continue to include all installation requirements as is being shared presently through e-mail
- In the event that the client is requesting a change in the schedule – the team member will reschedule based on the convenient and suitable time for client and ICS

INTEGR - Subscriber5 Version 3.1.0 Installation Requirements_Opera.pdf 294 KB

Greetings from IDEaS!

This is with regards to the scheduled installation for your property.

1. Please find the below machine specifications necessary for installation of IDEaS Subscriber Client-

Item	Minimum Specification	Recommended Specifications
Operating System	Windows 2008 Release 2 Under certain circumstances, IDEaS would consider deployment of the transport client using OS versions:- Windows Vista SP1 or Windows 7 64-bit SP1	Windows Server 2012 R2
Processor	Intel Pentium3 300 MHz CPU or higher	Intel Pentium4 1.4 GHz CPU or higher
RAM	512 MB or higher	1 GB or higher
Hard Drive	1 GB (Free Space)	1 GB (Free Space) or higher
CD-ROM	---	Yes, any
Monitor	Yes, any	Yes, any
Network Connection	Ethernet 10 MB	Ethernet 10 / 100 MB
Other Requirements	• Java Version 1.6.29 • Requires access to the network drives and/or directories as and when applicable • Must have access to the Internet at all times (E.g. to www.ideas.com) • Requires administrative login to install programs with following privileges: • Act as part of operating system. • Log on as a batch job.	

2. Please refer to the attached Installation Requirements document which further outlines the license and User credentials needed to complete the installation.

CARE will initiate the installation for your property at the scheduled time outlined in this WebEx. Should this time not suit you, please share alternative schedule for us to update the WebEx meeting.

Through this WebEx, we will remote access the machine on which, the IDEaS Subscriber Client is to be installed. Do note that the time outlined in the WebEx meeting request is the general amount of time that CARE will require to complete this installation.

If you prefer that CARE calls you prior to install – then please advise so along with a valid number, and inclusive of your country code, so that a CARE installer can reach out to you on that number.

We look forward to working with you towards a successful install.

Thanks and regards,
Sunny Mattoo
