Tetris Errors: [34 – DATABASE_EXCEPTION – executeBatch failed for calculate FPLOS – User.id: null – Workcontext: null] Cause :
com.microsoft.sqlserver.jdbc.SQLServerException: The Microsoft Distributed Transaction Coordinator (MS DTC) has cancelled the distributed transaction.-

=====

Action Items:-

- 1. Try to resume the failures maximum 03 times.
- 2. If its not going through that step after resuming then turn on “pacman.feature.fplos.forceLegacyCardinalityEstimator” to true at property level and resume the failure. There are very high chances that it will complete the failed step(No need to revert the parameter).
- 3. If the the job fails again after following the above 02nd step then escalate it to M escalations team then they will raise the ticket for re-indexing.
