For FOL as you know, the extract is received in the incoming folder the during processing it goes to inprocess folder, once processed it goes to Archive

Incoming -> Inprocess-> Archive

Problem may arise when the extract is in Inprocess folder for long time.

Possible Causes-

- The job NGI process FOLS File is failed.
- The job NGI process FOLS File is not triggered.

For Cause 1: Please restart the failed job.

For Cause 2: Please escalate to Raman team to move the files from inprocess to incoming with below details-

- a. correlationStatus:
- b. additionalInformation": {status}
- c. status of nucleusStatisticsCorrelations

For Point a/b – You can get it from URL below [Just change the property ID and file name highlighted]-

<http://us2pngiap01.ideasprod.int:9090/browser/index.html#http://us2pngiap01.ideasprod.int:9090/nucleusCorrelationMetadatas/criteria?search=sendingSystemPropertyId==5011;name==FFLEASH501100000180312021032.zip>

    ]
  }
}
```

Once Raman team to move the files from inprocess to incoming , you can catchup/reprocess it, please follow the steps below-

### To catchup FOLS extract

1. Select Chain "ACCOR HOTELS"
2. Go to Support
3. Select NGI Support Page
4. FOLS Catchup
5. Select the property code to be catchup.
6. Start date will be Grey out with the extract date pending to be process.
7. Enter the End Date same as start date.

\*Note- Do not click Run all Extracts

Repeat step 1 to 7 if you need to process next extract.

In case, if there is no extract at the location, it will show message below-

0
