Steps to follow to solve failure in Job Create Forecast Groups in step differentialBackFillStep

If you see the Job Create Forecast Groups in step differentialBackFillStep is failed with below error

Error:

```
=====
javax.ejb.EJBTransactionRolledbackException:
org.hibernate.exception.ConstraintViolationException: could not execute statement
Cause : javax.persistence.PersistenceException:
org.hibernate.exception.ConstraintViolationException: could not execute statement
Cause : org.hibernate.exception.ConstraintViolationException: could not execute
statement Cause : com.microsoft.sqlserver.jdbc.SQLServerException: Cannot insert
duplicate key row in object 'dbo.File_Metadata' with unique index
'Unique_File_Name'. The duplicate key value is (3, 993541, PaceHistoryBuild, 2019-
10-09, 04:31:10.0000000).
=====
```

Reason of the failure –

It is trying to insert the duplicate record in File_Metadata table on date 2019-10-09 (Date will be different and can be identified from the error).

Resolution –

Get the test system up for the property and hit the below query

Select * from File_Metadata where SnapShot_DT = '2019-10-04' – Below is the result

12759	3	1	OperaDataLoad	edc097e-118a-43b7-88...	993540	730	730	NULL	NULL	2019-10-04	04:31:56.0000000	2019-10-04	04:31:56.0000000
12760	11	0	OperaDataLoad	edc097e-118a-43b7-88...	993540	730	730	NULL	NULL	2019-10-04	04:31:56.0000000	2019-10-04	04:31:56.0000000
12761	18	0	OperaDataLoad	edc097e-118a-43b7-88...	993540	730	730	NULL	NULL	2019-10-04	04:31:56.0000000	2019-10-04	04:31:56.0000000
12762	19	0	OperaDataLoad	edc097e-118a-43b7-88...	993540	730	730	NULL	NULL	2019-10-04	04:31:56.0000000	2019-10-04	04:31:56.0000000

As you can see the File_Meta_ID 12759 is dupliacte of File_Meta_ID 12753. Both these record are marked as BDE and have same snapshot date and time and prepared date and time.

There can be possibility where two BDE’s were processed on the same day.

The snapshot date and time can be same, but the **prepared time** of those two BDE’s cannot be same.

We have to change the **prepared time** of BDE which is duplicate (File_Meta_ID 12759), Please get in touch with your TL or SC to get this updated from QA/CSS.

Once the prepare date is changed you can resume the failure and job should get completed.

Note – When I say two BDE means one system triggered and another manually triggered (System will never trigger two BDE’s automatically for the same business date)
