Steps to open CIA or CP cases

Steps to open CIA or CP cases Version -2

Document Owner: Rishikesh Kunte

Overview

This document outlines the procedure to raise a **CIA (Client Intervention Analysis)** or **CP (Continuous Processing)** case:

- **CIA:** Used for *decision upload issues*.
- **CP:** Used for *processing or extraction issues*.

It is designed specifically for **new joiners** to help them confidently raise **CIA** or **CP** cases using a clear, step-by-step approach.

It includes annotated screenshots and detailed instructions so you can follow along without prior experience. The goal is to ensure consistency and reduce confusion while handling common issues like decision upload failures or processing errors.

Step 1: Locate the Property

Search for the hotel/property where you’re facing the issue. You can cross-check the **Account Number** from **G3** for accuracy.

Step 2: Navigate to Orders

- Once the property is selected, click on **“Show All”**.

- Then click on “Orders (Order Account)”.

Step 3: Verify Order Details

- On the Orders page, check:
 - **Order Product Family**
 - **Record Type Name**
 - **Status**
- Select a **valid Order Number**. In the example below, the first Order Number was valid.

Step 4: Get Max Order Product End Date

- After selecting the Order Number:
 - Use **Ctrl + F**, search for “**max**”.
 - This reveals the **Max Order Product End Date**. Make sure the date is valid.

Step 5: Identify the Order Owner

Locate the **Order Owner** – you’ll assign the case task to them later.

Step 6: Create the Case

- Scroll up and to the right, click on “**Create Case**”.

Hello Team,

This document take you through step by step process to open a CIA CP case.

- 1) Search for the Hotel/ Property that you are facing an issue with. You can check and confirm the Account Number from G3 as well.
- 2)Once you have the property, click on Show All > then click on Orders (Order Account).

3)Once you are on the Orders page, check the Order Product Family and the Record Type Name as well. Then check the status and select the valid Order Number. In the screenshot below, 1st Order Number was valid, so that was selected.

4) Now check the Order Owner. The escalation needs to be assigned to this Order Owner. In most cases, the ISM is the Order Owner.

5)Now, scroll up and to your right, select on 'Create Case'. In the Case Category Type, select Monitoring. Select the Product Family as per the issue you are working on. In this case, it was G3 RMS. Then click on 'Next'.

6)Now select the Case Reason as required

Now select the Contact. You can get the contacts from 'Related Contacts' –

Select the 'IT CC' option from here.

Now put it in the Case Description.

Hello [ISM Name],

Please be informed that we are facing [mention the issue] issue for the property.

The email notification has already been sent to the property contacts-

[Enter email subject line]

Share in brief on the exact issue that you are facing

We need your assistance in resolving the ongoing [mention the issue] issue.

**The case is opened for tracking the issue so please do not close the case until the issue gets resolved completely.

Warm Regards,

[Your Name]

Then click on 'Next'.

7) Now select the correct options as shown below –

Then click on Next.

8) If there is any file that you need to share with the ISM, click on ‘Upload Files’, or else click on ‘Finish’.

Your Case is now open.

Once the Case is open, click on it. Here, click on ‘Open Activities’.

By default, the ‘Task’ will be assigned in your own name. Assign this to the ISM like done in the example below –

Once this is done, your CIA/ CP case is ready and the task is also assigned to the ISM.

Please reach out to Shift leads Seniors for any doubts.
